

## INGangNetwork and InterAct

The Indiana Gang Network (INGangNetwork) is a statewide criminal gang intelligence database. The intelligence entered in the INGANetwork database can be accessed by members via mobile devices or desktop application, allowing all law enforcement and criminal justice personnel to enter and share intelligence on gang membership and activity.

Recently, INGANetwork has collaborated with CI Technologies and the Integrated Public Safety Commission to provide INGANetwork alerts, via the InterAct mobile application, to all Computer Aided Dispatch/Records Management System (CAD/RMS) users.

Alerts from the INGANetwork statewide database will significantly increase gang awareness, heighten knowledge of possible dangers, and ultimately increase the safety of law enforcement and criminal justice personnel.

## How It Works

When a public safety official makes an inquiry, the InterAct mobile system will create several queries simultaneously (NCIC, BMV, RMS, INGANetwork, and several more). If an individual is linked to a record, the INGANetwork database will be presented in the candidate list with source information.

The person or vehicle will be represented in RED, indicating a causation alert. No alarm will sound. If users would like more information and are members of INGANetwork, they can simply log into their INGANetwork account. If a user is not a member of INGANetwork, he or she may learn how to become a member by visiting: <http://www.in.gov/iifc/2396.htm>. If a user has a criminal predicate and is in need of immediate assistance, he or she may contact the Indiana Intelligence Fusion Center (IIFC) via email at [iifc@iifc.in.gov](mailto:iifc@iifc.in.gov).

If no record is presented, no response will be received. A message at the bottom of the candidate's list will indicate the number of databases checked/returned with a negative response.

For more information on INGANetwork, please visit: <http://www.in.gov/iifc/2329.htm>, or click on the following links to learn more about InterAct (<http://www.interact911.com/>) and CI Technologies (<http://www.ci-technologies.com/>).

The screenshot shows the InterAct mobile application interface. At the top, there is a navigation bar with icons for Logon, Help, TTV, CCIS, ALM, Stat, Read, Mail, Talk, Annc, Disp, NCIC, Sumr, Form, and Info. Below the navigation bar, the Command field is set to "logon ken". The main display area shows a list of candidates on the left and details for the selected candidate on the right. The selected candidate is highlighted in red, indicating a causation alert. The details include Name, Address, Record (12617), Source (INGangNetwork), Agency Contact, Comments (Possible Gang Affiliation), and physical characteristics (Race: Black, Gender: Male, Build: 5' 8", Height: 140, Weight: Black, Eyes: Brown). The bottom of the screen shows the SSN, OLN, Date of birth, and Place of birth fields.

Field	Value
Name	[REDACTED]
Address	[REDACTED]
Record	12617
Source	INGangNetwork
Agency Contact	Member log in: <a href="https://ingangnetwork.in.gov/">https://ingangnetwork.in.gov/</a> Membership Request: <a href="http://www.in.gov/iifc/2396.htm">http://www.in.gov/iifc/2396.htm</a> For immediate assistance send email to <a href="mailto:iifc@iifc.in.gov">iifc@iifc.in.gov</a> All requests must be based on a valid "Criminal" predicate for inquiry
Comments	Possible Gang Affiliation
Race	Black
Gender	Male
Build	5' 8"
Height	140
Weight	Black
Hair	Black
Eyes	Brown
SSN	[REDACTED]
OLN	[REDACTED]
Date of birth	[REDACTED]
Place of birth	[REDACTED]
